“Beautiful Noise starring Denny Diamond & The Jewels”...

...can put a sparkle in your line-up!

With a magnificent voice that rivals that of any Neil Diamond impersonator, Denny’s performance is all about the words and music of a superstar that’s held a place of honor in the entertainment world for decades. Forget the flash, effects, and costumes that seek to convince the audience it’s just like the real thing; the “Denny Diamond & The Jewels” show is focused on the remarkable vocals, masterful musicianship, and family interaction that’s charmed audiences everywhere! The show also features Denny’s talented sons, Lucas and Spenser. The boys enjoy the songs of their Dad’s hero, but they employ their method they’ve coined as ‘six degrees of Neil Diamond’ to introduce other music into the mix, including that of superstars like Glen Campbell, Ricky Nelson, Buddy Holly, and Johnny Cash. And, as if all that fabulous music isn’t enough, you’ll be treated to original songs from “Denny Diamond & The Jewels!”

After capturing the attention of the Dick Clark produced, talent seeking television show, Your Big Break, Denny's career focus was confirmed; he became a sought after performer who excelled at leaving audiences enchanted! Along with the boys, these three artists create a dynamic four-piece band, courtesy of Spenser’s unique ability to play both bass and drums simultaneously.

No destination pays tribute to music and Hollywood legends like Branson, and no tribute show brings you the brilliance of Neil Diamond like “Beautiful Noise starring Denny Diamond & The Jewels!”

Accolades

“Congratulations, Denny. A wonderful Father's Day indeed for your family and the 5000 others. That is a very impressive audience. You are helping to keep Neil's music "Live" out there.”

-Alison Z. , Assistant to Neil Diamond

“Denny Diamond and his very talented sons always put on a great show and the time always flies by way too quickly, but this show was spectacular. Denny is such a fun, engaging performer, loaded with talent, and his really beautiful singing voice is something I could listen to all night long. Denny always gives the crowd what they want and makes sure each and every person in the audience is noticed and feels that he is singing for them. He and his sons always leave one happy, laughing, flushed with excitement and wanting more. It is extremely thoughtful of the guys to greet the audience after the show, and Denny, Lucas and Spenser's friendly personality shines here also, and not just onstage. I will be very happy to return to any show they do here at Pheasant Run and am already looking forward to next year!”
